Continuation of 10. Other (including any explanation in support of the above items): The appellant failed to include a concise explanation of all of the subject matter appearing in the independent claims, i.e. claims 7 and 15. For example, in claim 7, the appellant does not discuss the pair or spaced legs, the seat portion, the main body comprises a panel that defines a front surface and a rear surface, the first retainer includes a hook shape biased towards the rear surface of the main body, the second retainer includes a hook shape biased toward the rear surface of the main body, and the padding having an outer surface attached to the main body wherein a message is inscribed on the outer surface of the padding so as to be positioned in front of the front surface of the main body. In a manner similar to claim 7, the appellant failed to include a description of all of the subject defined in independent claim 15. Under the "Argument" section, in order to make it clearer, the appellant should list the rejection and which claims apply to the rejection followed by the applicant's arguments with regard to the rejection. The appellant failed to include an "Evidence appendix" and a "Related proceedings appendix" as required.
